Subject: Continuance Request for Docket 2012-363-T

Importance: High

Josh,

Matt and his client have been good to work with, and we are working with Fireman's Carry Movers on further Application revisions. We think a continuation of tomorrow's 10:30am hearing to a later date is best for everyone.

We look forward to hearing from you.

Best regards,

Shannon

Subject: RE: Prehearing Conference in Docket 2012-363-T

Josh,

I hope this email finds you well. I am writing to request a continuance of the hearing scheduled for tomorrow at 10:30 AM in front of the Commission in the above matter. I have been speaking with Shannon and George, and I believe they will agree to this continuance. My client will be submitting a second amended application shortly, and we would like everyone's support after reviewing these new submissions. Is this continuance request acceptable?

Furthermore, should you find this continuance acceptable, can we refrain from traveling to Columbia tomorrow to appear? Also, can this email suffice to memorialize the continuance request, or do you require a formal filing?

Thank you for your consideration Josh. If everything discussed is acceptable, I will wait for your confirmation of a new hearing date. I'd be happy to provide unavailable dates at your request. Thanks.
